Dhampur, Bijnor, Uttar Pradesh

Professional Summary

Full Stack Developer with **5 years** of experience building scalable, high-performance web applications across **Maritime Intelligence, Media Advertising, and E-commerce** domains. Strong expertise in **React.js, Vue.js, Node.js, REST and GraphQL APIs**, and cloud-ready architectures. Proven ability to deliver data-intensive dashboards, optimize performance, and collaborate in Agile environments.

Professional Experience

Successive Digital | Full Stack Developer

Mar 2021 – Present

- Designed and delivered scalable full-stack applications for enterprise clients across multiple domains.
- Optimized **Node.js** and **MongoDB APIs**, reducing response times by **30%** and infrastructure costs by **15%**.
- Built interactive dashboards using **React.js, Vue.js, and TypeScript**, improving operational efficiency by 20–25%.
- Implemented real-time data pipelines and integrations using **Kafka**.
- Developed maritime route-optimization visualizations using **OpenLayers** and TVOS algorithms, achieving **5–10% fuel savings**.
- Conducted technical spikes and proof-of-concepts (POCs) to evaluate architecture and de-risk complex features.
- Mentored junior developers, enforced coding standards, and collaborated closely with cross-functional teams.
- Awarded **Star Performer (2025)** and multiple internal recognition awards.

Key Projects

PoleStar Global – Podium 5

Technologies: Vue.js, Vuex, Vuetify, Node.js, Express.js, PostgreSQL, JavaScript (ES6+), OpenLayers, AG Grid, REST APIs

- Built and maintained responsive web and web-wrapped applications for vessel tracking, sanctions monitoring, and maritime intelligence dashboards.
- Optimized real-time data visualization through efficient **Vuex state management** and rendering strategies.
- Developed interactive map-based user interfaces using **OpenLayers** and data-heavy tables using **AG Grid**.

- Integrated frontend applications with **Node.js REST APIs** for compliance, routing, and risk assessment workflows.
- Designed and implemented backend services including API development, data processing, and third-party data integrations.
- Collaborated with designers and domain experts to translate complex maritime datasets into intuitive UI experiences.

Dentsu – Media Advertising Platform

Technologies: React.js, Redux, TypeScript, Node.js, Express.js, MongoDB, Kafka, Handsontable, Bryntum Scheduler, Vuetify

- Designed and developed **Express.js REST APIs** using **TypeScript** to support media planning, versioning, and approval workflows.
- Architected scalable frontend modules using **React.js**, including scheduling interfaces and data-intensive tables.
- Integrated frontend components with backend services, ensuring consistent business logic enforcement.
- Enhanced application performance through optimized state management, API tuning, and rendering strategies.
- Improved system reliability by implementing unit and integration tests across frontend and backend layers.
- Collaborated with product stakeholders and delivered multiple POCs to validate technical decisions.

MarketCube – Multivendor E-commerce Platform

Technologies: React.js, Redux, Node.js, Express.js, MongoDB, Apollo GraphQL, REST APIs, Microservices Architecture

- Developed scalable backend services for multivendor workflows including vendor onboarding, product catalogs, inventory management, and order processing.
- Built and integrated **RESTful and Apollo GraphQL APIs** with MongoDB for secure and high-performance data access.
- Implemented **JWT-based authentication** and role-based authorization for vendors and administrators.
- Developed reusable frontend components and integrated them with backend APIs for end-to-end feature delivery.
- Improved overall system performance through optimized API design and frontend rendering techniques.

Technical Skills

- **Frontend:** React.js, Redux, Context API, Vue.js, Vuex, Vuetify, TypeScript, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, REST APIs, GraphQL

- **Databases:** MongoDB, PostgreSQL
- **Testing:** Jest, React Testing Library
- **Cloud & DevOps:** AWS, CI/CD, Git
- **Security:** JWT, OAuth

Education

Harcourt Butler Technical University

2016 – 2020

Bachelor of Technology (B.Tech) in Information Technology

Percentage: 73.36%

Languages

English, Hindi
