Dhampur, Bijnor, Uttar Pradesh

Professional Summary

Senior Software Engineer with 5.3 years of experience building enterprise-scale applications using React.js, Next.js, TypeScript, and Node.js. Experienced in Design Systems, Accessibility (WCAG), Test Automation, and modern frontend architecture, with contributions supporting multiple enterprise products and large-scale data-intensive platforms across Cybersecurity, Maritime Intelligence, Media Advertising, and E-commerce domains.

Professional Experience

Successive Digital | Senior Associate Engineer Mar 2021 – Present

- Developed enterprise-scale web applications for global clients across Cybersecurity, Maritime Intelligence, Media Advertising, and E-commerce domains.
- Built modern frontend applications using React.js, Next.js, Vue.js, and TypeScript while contributing to backend services using Node.js, Express.js, MongoDB, and PostgreSQL.
- Designed and delivered real-time dashboards, geospatial visualization platforms, and data-intensive user interfaces supporting operational decision-making.
- Collaborated on architecture discussions, proof-of-concepts, code reviews, and mentoring initiatives across engineering teams.
- Recognized as **Star Performer (2025)** for technical excellence and consistent project delivery.

Key Projects

Zscaler – Enterprise Security Platform

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, React Aria, Playwright, Vitest, pnpm, i18next

- Developed enterprise-scale frontend features within a large React + Next.js monorepo, including asynchronous exports, real-time diff viewers, and paginated data management interfaces.
- Built reusable custom React hooks for data fetching, date-range selection, and asynchronous job tracking, improving maintainability and reducing code duplication.
- Modernized and standardized **10+ application pages** using a shared component library, improving UI consistency and accelerating feature delivery.
- Implemented accessible user experiences using React Aria and WCAG-compliant design patterns with keyboard navigation and ARIA support.
- Authored and maintained **300+ unit and end-to-end test suites** using Vitest and Playwright, improving application reliability and release confidence.
- Contributed to the Nimbus Core design system built on React 19 and Tailwind CSS, supporting **5 enterprise products** through reusable, accessible, and consistent UI components.

PoleStar Global – Podium 5

Technologies: Vue.js, Vuex, Vuetify, Node.js, PostgreSQL, OpenLayers, AG Grid

- Built maritime intelligence applications supporting vessel tracking, sanctions monitoring, compliance workflows, and route optimization.
- Developed geospatial visualization interfaces using OpenLayers and AG Grid for large operational datasets.
- Integrated frontend applications with backend services supporting compliance, routing, and risk-assessment workflows.
- Optimized state management and rendering strategies for real-time, data-intensive dashboards.

Dentsu – Media Advertising Platform

Technologies: React.js, Redux, TypeScript, Node.js, MongoDB, Kafka

- Developed React and TypeScript-based media planning applications supporting scheduling, approvals, and workflow management.
- Built scalable REST APIs and frontend modules handling complex business workflows and large datasets.
- Improved application performance, reliability, and maintainability through testing, optimization, and architecture enhancements.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Vue.js, Vuex, Tailwind CSS, React Aria, HTML5, CSS3
- **Backend & APIs:** Node.js, Express.js, REST APIs, GraphQL, Apollo GraphQL
- **Databases:** MongoDB, PostgreSQL
- **Testing:** Playwright, Vitest, Jest, React Testing Library, End-to-End Testing
- **Architecture & Tools:** Monorepo Architecture, Design Systems, Component Libraries, Kafka, OpenLayers, AG Grid, pnpm, Git, GitLab
- **Cloud & DevOps:** AWS, CI/CD
- **Security:** JWT, OAuth, Role-Based Access Control (RBAC)
- **Practices:** Accessibility (WCAG), Agile Development, Performance Optimization, Code Reviews

Education

Harcourt Butler Technical University

2016 – 2020

Bachelor of Technology (B.Tech) in Information Technology

Percentage: 73.36%
